PROFESSIONAL SUMMARY

Computer Science and Engineering (Artificial Intelligence) graduate with practical knowledge of **Java Full Stack Development, Python, HTML, CSS, JavaScript, SQL, and MongoDB**. Completed a **Java Full Stack internship at SkillDzire** and developed projects involving web development, AI/ML, databases, and real-world problem solving. Strong interest in backend development, REST APIs, database-driven applications, and scalable software solutions. Seeking an entry-level **Full Stack Java Developer / Java Developer** position.

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript

Frontend: HTML5, CSS3, JavaScript

Backend: Java, Spring Boot, REST APIs

Databases: MySQL, MongoDB, SQL

AI/ML: Machine Learning, Artificial Intelligence, Data Analysis

Core: OOP, Data Structures & Algorithms, DBMS, Computer Networks

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Eclipse

INTERNSHIP EXPERIENCE

Java Full Stack Intern — SkillDzire

July 2025

- Completed practical training in **Java Full Stack Development**.
- Developed knowledge of frontend, backend, and database integration concepts.

- Applied **Java and Object-Oriented Programming** principles in application development.
- Worked with web technologies including **HTML, CSS, and JavaScript**.
- Practiced database connectivity and backend application development.
- Gained experience with software development, debugging, and problem-solving practices.

Data Analytics Job Simulation — Deloitte

- Completed a practical data analytics job simulation based on business-oriented data problems.
 - Applied data analysis and problem-solving techniques to derive meaningful insights.
 - Gained exposure to professional data analytics workflows.
-

PROJECTS

ClassCast — Classroom Screen-Casting Platform

Technologies: Flutter, Dart, Node.js, Express.js, WebRTC, SQL

- Designed a classroom screen-casting platform enabling teachers to share their screen with multiple student devices.
- Planned real-time communication using **WebRTC** and a Node.js/Express.js signaling backend.
- Designed teacher and student workflows for classroom screen sharing.
- Focused on LAN-based communication for classroom environments.

AI COM Analyzer — AI Mock Interview Platform

Technologies: Machine Learning, HTML, JavaScript, MongoDB

- Developed an AI-oriented mock interview platform for technical interview preparation.
- Designed functionality for interview questions, candidate responses, and automated analysis.
- Used HTML and JavaScript to develop the application interface.
- Used MongoDB for storing interview and candidate-related data.

- Explored Machine Learning concepts for candidate-response analysis and feedback.

DoltNow — Task Management Application

Technologies: Java, Android, SQLite

- Designed a task-management application for organizing daily activities.
 - Implemented task creation, modification, completion, and deletion functionality.
 - Used SQLite for local data storage.
 - Focused on a simple and practical user experience.
-

EDUCATION

Bachelor of Technology — Computer Science & Engineering (Artificial Intelligence)

Narasaraopet Engineering College

2022 – 2026

CGPA: 7.0 / 10.0

CERTIFICATIONS & TRAINING

- Java Full Stack Internship — SkillDzire
 - Data Analytics Job Simulation — Deloitte
 - AI / Machine Learning Project Development
-
